This information pertains to one of the Training and Dialogue Programs of the Japan International Cooperation Agency (JICA), which shall be implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between both Governments.

# Cooperation on UHC

## 3. Technical cooperation project

Indonesia: Study programs and seminars on social insurance

- It is held from FY2013 to FY2015 under a close cooperation with National Graduate Institute for Policy Studies (GRIPS)
- Through study programs in Japan and a series of seminars in Indonesia, technical issues for effective management of social insurance will be discussed.

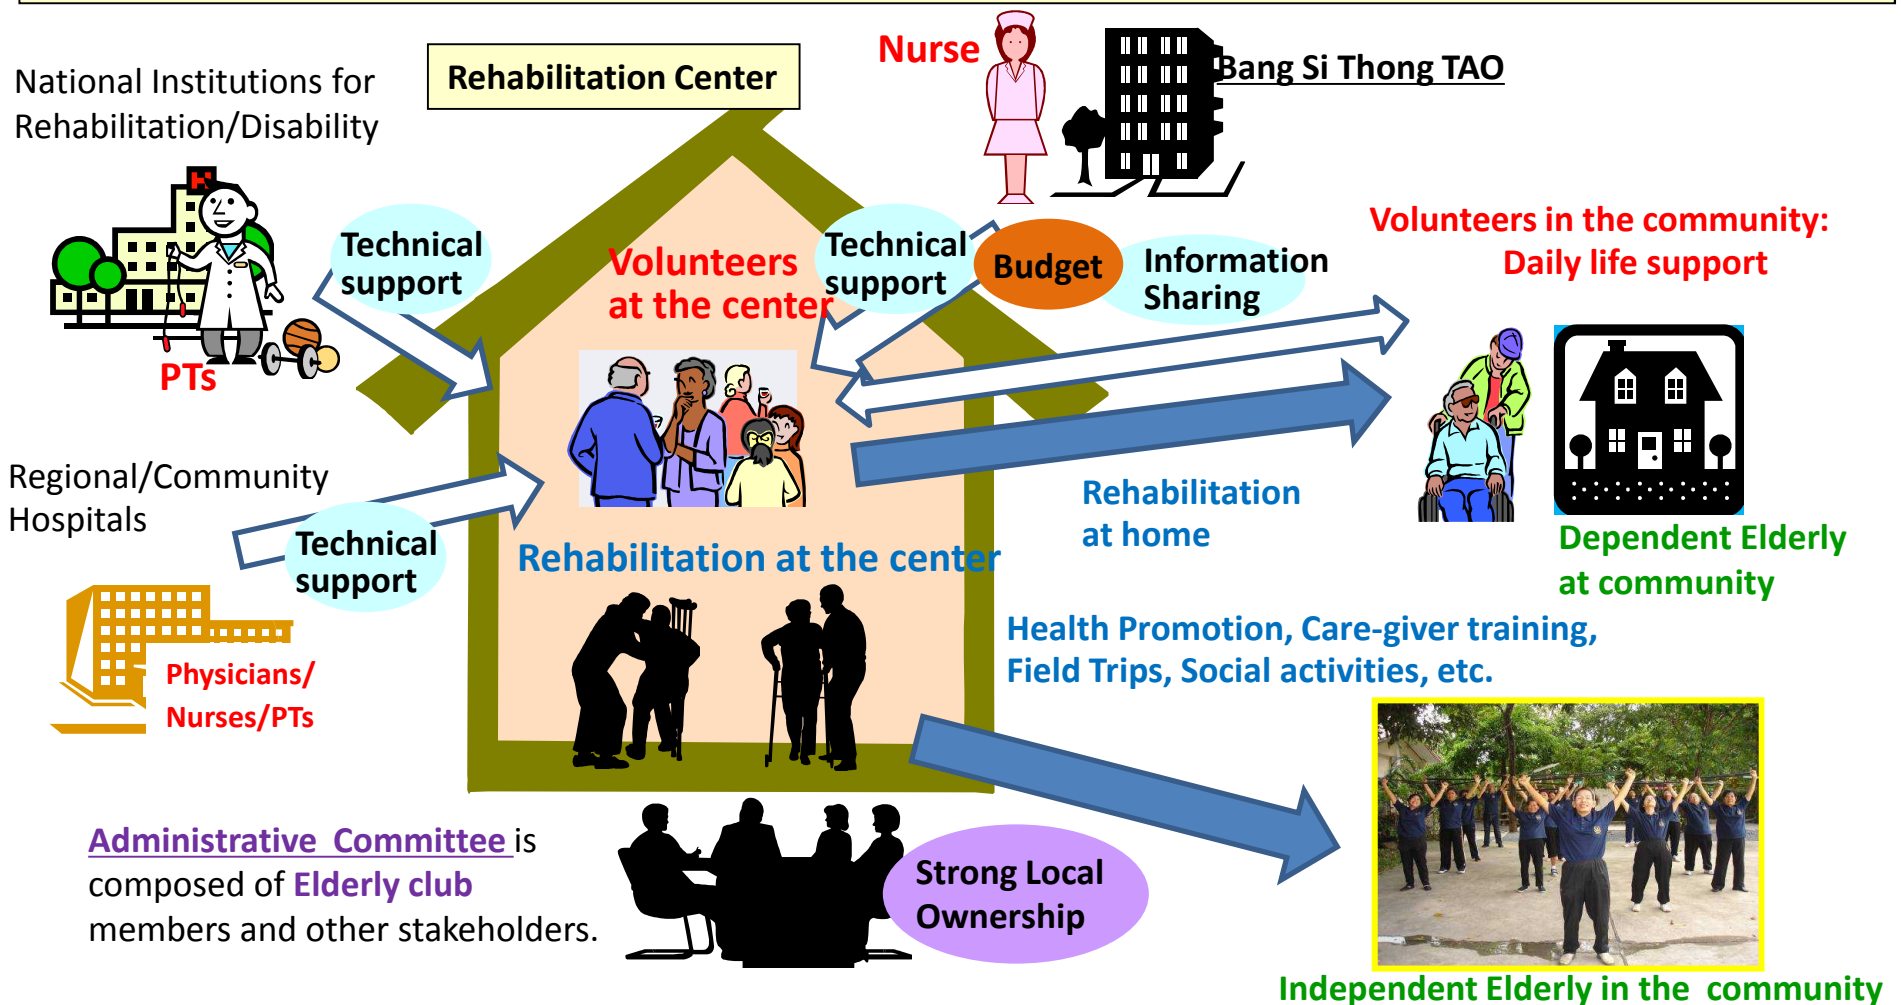

# Cooperation for community-based, integrated service system

1. CTOP in Thailand (2007-2011)
  - “Community Health Care and Social Welfare Services Model for Thai Older Persons”
  - A technical cooperation project with the Ministry of Public Health, Ministry of Social Development and Human Security and Ministry of Labour as the partners
  - It aimed to establish models to utilize local resources as effectively as possible for catering elderly persons' health and welfare needs.
  - By implementing pilot projects in 4 sites, we developed models to provide support services to elderly persons in integrated manner. Thailand's nationwide force of 1 million community health volunteers as well as local elderly club members played substantial roles.

# CTOP Project –Practice in Bangsithong

Rehabilitation center is a kind of multi-purpose center which provides **various services** for **elderly with different needs & conditions**. **Volunteer workers** at the center are technically **supported by a network of high skill professions**. Center is operated by **Administrative Committee** where **elderly club members play important roles**, that's why the operation of the center is based on **real local ownership**.

# Active Elderly Persons in CTOP

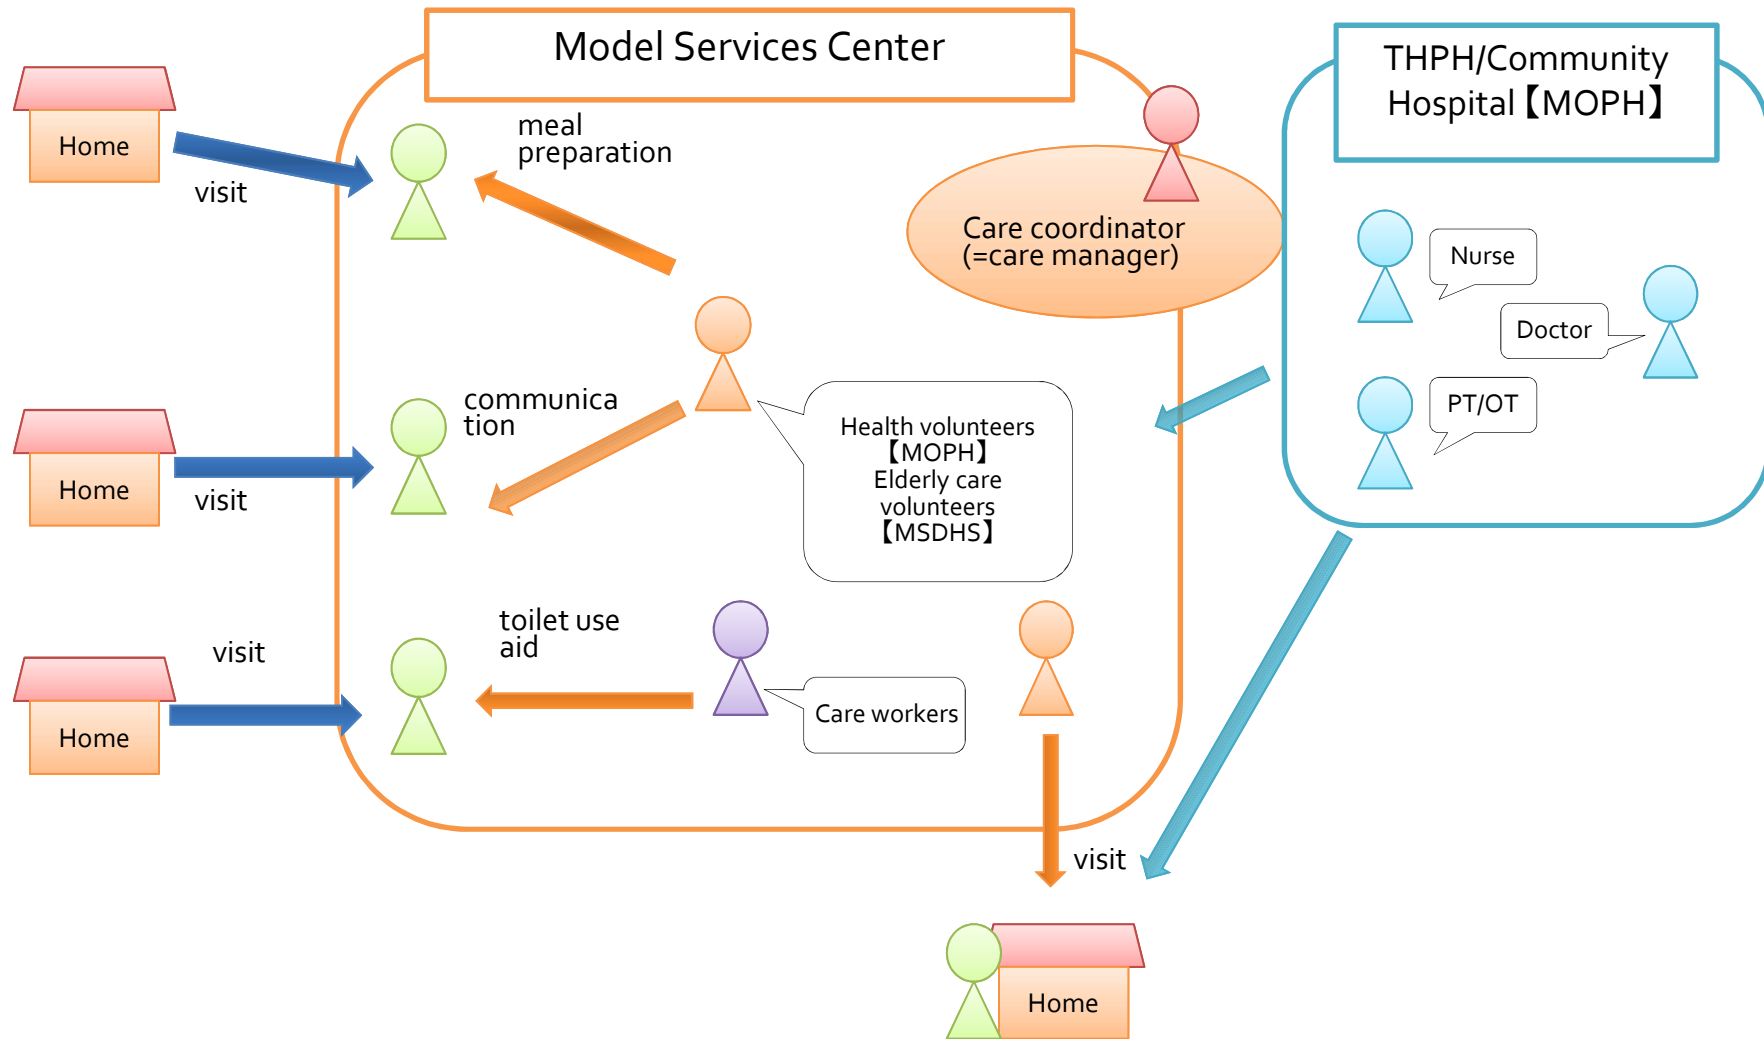

# Cooperation for community-based, integrated service system

## 2. LTOP in Thailand (2013-2017)

- Project on **L**ong-term care service development for the frail elderly and other vulnerable people
- Our first technical cooperation project on elderly care, focusing on frail elderly persons, with the Ministry of Public Health, Ministry of Social Development and Human Security as the partners
- By implementing pilot operations to deliver necessary services in six locations in Thailand, we plan to engage in a process of repeated evaluation and improvement, and while verifying efficacy and costs, propose policies related to elder care that are sustainable in Thailand.

# Expected Service Model in LTOP

# The Way Forward

1. Sharing knowledge and experiences for common challenges
2. Different solutions for different contexts
3. Learning opportunity for Japan as well
