

6. Outline of the Results

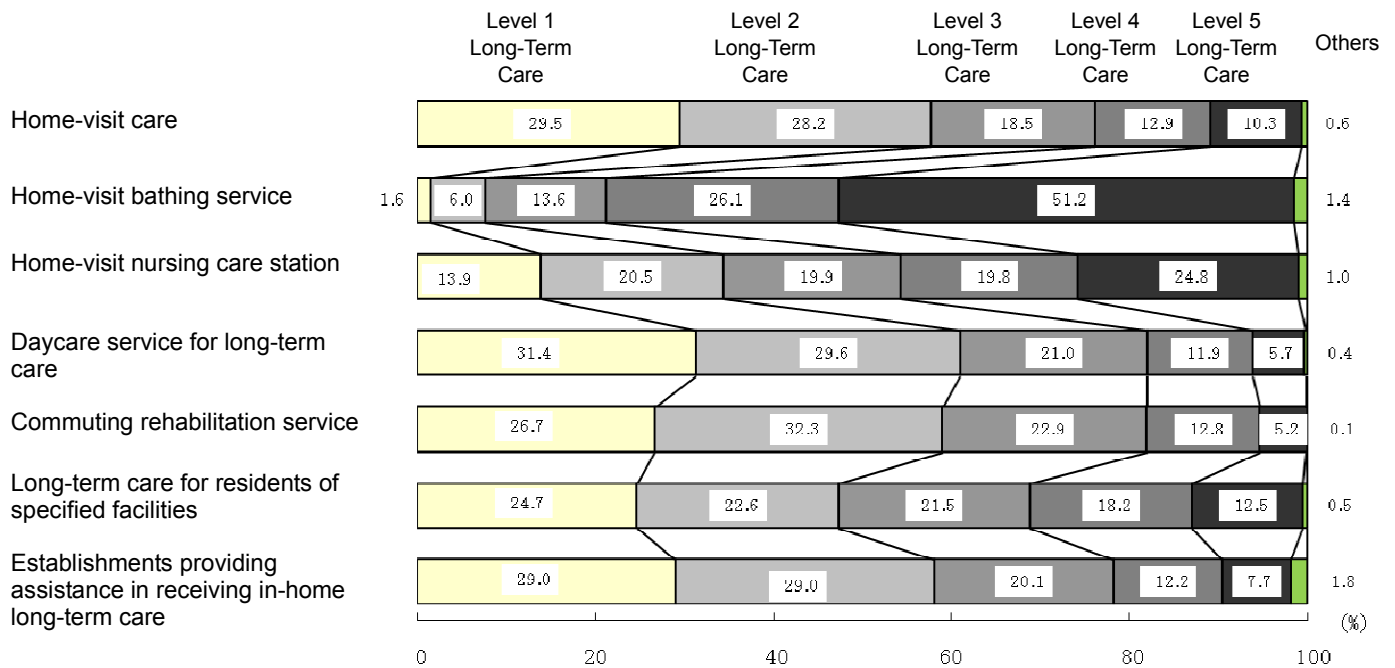

Table 1 Number of Use (Day) per Recipient in September by Type of Preventive Long-term Care Services and Long-term Care Services

(In September of each year)

		2009	2008
Preventive Long-Term Care Services	Establishments providing in-home services for preventive long-term care (Home-visit type)		
	Home-visit care for preventive long-term care	6.0	6.2
	Home-visit bathing service for preventive long-term care	4.2	4.5
	Home-visit nursing care station for preventive long-term care	3.9	4.0
	(Daycare type)		
	Daycare service for preventive long-term care	5.4	5.6
	Commuting rehabilitation service for preventive long-term care	5.7	5.8
	Healthcare facilities for the elderly requiring long-term care	5.8	5.9
	Medical institution	5.6	5.7
	(Others)		
	Short-term stay for preventive long-term care	5.3	5.4
	Short-term stay for preventive recuperative care	4.8	5.0
	Healthcare facilities for the elderly requiring long-term care	4.8	5.1
	Medical institution	4.9	4.6
	Establishments providing community-based preventive long-term care services		
	Daycare for preventive long-term care of the elderly with dementia	5.0	4.8
	Multifunctional preventive long-term care in a small group home setting	14.9	14.0
Long-Term Care Services	Establishments providing in-home services (Home-visit type)		
	Home-visit care	16.1	16.6
	Home-visit bathing service	4.7	4.6
	Home-visit nursing care station	5.8	6.0
	(Daycare type)		
	Daycare service for long-term care	8.1	8.3
	Commuting rehabilitation service	8.0	7.9
	Healthcare facilities for the elderly requiring long-term care	8.1	7.9
	Medical institution	7.9	7.9
	(Others)		
	Short-term stay for long-term care	9.3	9.4
	Short-term stay for recuperative care	7.4	7.3
	Healthcare facilities for the elderly requiring long-term care	7.4	7.2
	Medical institution	7.5	7.9
	Establishments providing community-based services		
	Nighttime home-visit care	5.0	4.5
	Daycare for the elderly with dementia	9.0	9.4
	Multifunctional care in a small group home setting	27.9	25.6

- Note: 1. 'Home-visit nursing care stations for preventive long-term care' include recipients covered by the Long-Term Care Insurance Act and those "applying for certification of the required support status".
2. 'Home-visit nursing care stations' include recipients covered by the Long-term care insurance act/Health insurance act, etc., those "applying for certification of the required long-term care status", and "others."
3. 'Short-term stay for long-term care (for preventive long-term care)' does not include recipients using beds by the open-bed-use system.
4. "Number of use per recipient" indicates "Number of days of use per recipient" for 'Short-term stay for long-term care (for preventive long-term care)' and 'Short-term stay for recuperative care (for preventive long-term care)'.

Figure 1 Percentage Distribution of Recipients by Level of Required Long-term Care and Type of Long-term Care Service (as of September, 2009)

Note: 1. "Others" include recipients "applying for certification of the required long-term care status", etc.

2. 'Home-visit nursing care stations' include recipients covered by the Long-term care insurance act, those "applying for certification of the required long-term care status", and "others."

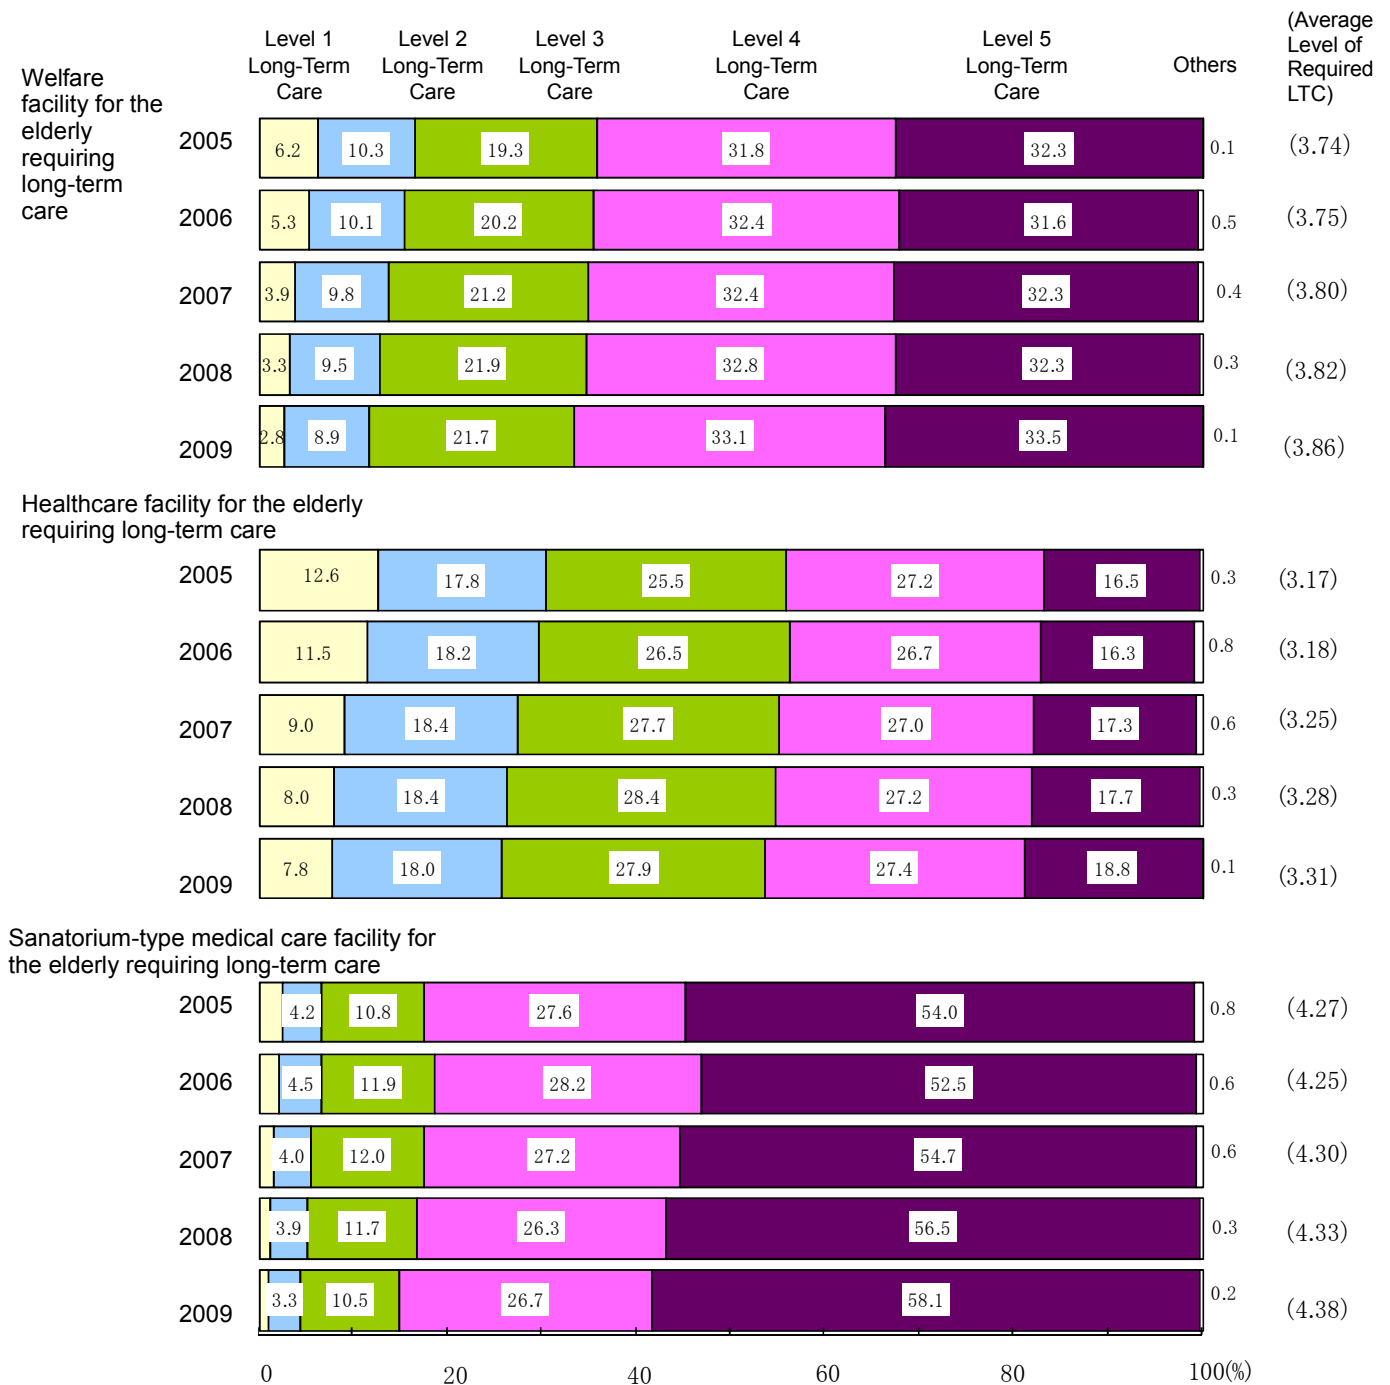

3. 'Long-term care for residents of specified facilities' indicates recipients as of the end of September.

Table 2 Percentage Distribution of the Recipients of Home-visit Care by Sex and Age Group

As of September 30, 2009

	Percentage Distribution (%)						
	Total	Age 40 ~ 64	Age 65 ~ 69	Age 70 ~ 79	Age 80 ~ 89	Age 90 or Older	Unknown
Total	(100) 100.0	4.5	5.6	26.3	46.3	15.3	2.0
Male	(29.8) 100.0	6.8	8.5	29.1	40.6	12.8	2.1
Female	(70.2) 100.0	3.5	4.4	25.0	48.7	16.4	1.0

Figure 2. Trends in the Percentage Distribution of Residents by Level of Required Long-term Care
As of October 1st of each year

Note 1. The “Average Level of Required LTC” is calculated using the following formula.

$$\text{Average Level of Required Long-Term Care} = \frac{\text{Sum of all residents' levels of required long-term care}}{\text{Total number of residents at Level 1 to 5 long-term care}}$$

2. “Others” indicates those who do not have the certification of the “Required long-term care” status (those applying for the certification), etc.
