

Table 5. Number of uses (days) per person during September

		September of each year	
		2011	2010
Preventive long-term care services	Establishments providing home-based services for preventive long-term care (Home-visit type)		
	Home-visit care	6.1	6.2
	Home-visit bathing service	4.0	4.1
	Home-visit nursing care station 1)	4.0	4.0
	(Daycare type)		
	Daycare service	5.5	5.6
	Daycare rehabilitation	5.8	5.8
	Healthcare facility for the elderly requiring long-term care	5.9	5.9
	Medical institution	5.7	5.8
	(Other)		
	Short-term stay 3) 4)	5.0	5.2
	Short-term stay for recuperative care 4)	4.8	4.9
	Healthcare facility for the elderly requiring long-term care	4.8	4.9
	Medical institution	5.3	5.6
Establishments providing community-based long-term care services for preventive long-term care			
Daycare for long-term care of the elderly with dementia	5.2	5.5	
Small-scale multifunctional home-based long-term care	16.1	15.0	
Long-term care services	Establishments providing home-based services (Home-visit type)		
	Home-visit care	17.3	16.9
	Home-visit bathing service	4.8	4.7
	Home-visit nursing care station 2)	6.0	6.0
	(Daycare type)		
	Daycare service	8.5	8.5
	Daycare rehabilitation	8.2	8.2
	Healthcare facility for the elderly requiring long-term care	8.3	8.2
	Medical institution	8.1	8.2
	(Other)		
	Short-term stay 3)4)	9.6	9.4
	Short-term stay for recuperative care 4)	7.2	7.2
	Healthcare facility for the elderly requiring long-term care	7.1	7.2
	Medical institution	8.8	8.1
Establishments providing community-based services			
Nighttime home-visit care	5.4	5.4	
Daycare for long-term care of the elderly with dementia	9.4	9.5	
Small-scale multifunctional home-based long-term care	30.1	28.9	

Notes: 1) Home-visit nursing care stations for preventive long-term care does not include recipients solely under the Health Insurance Act.

2) Home-visit nursing care station includes recipients under the Health Insurance Act.

3) Short-term stay for (preventive) long-term care does not include recipients under the open bed use system.

4) "Number of use per person" of the short-term stay for (preventive) long-term care and short-term stay for (preventive) recuperative care are provided as "Number of days of use per person".

Table 9. Annual trend in number (and percentage distribution) of residents

Units: %

September of each year

	2011	2010	2009	2008	2007
Welfare facilities for the elderly requiring long-term care	53.6	52.7	52.4	52.0	51.1
Healthcare facilities for the elderly requiring long-term care	37.3	37.6	37.1	36.5	36.0
Recuperative medical care facilities for the elderly requiring long-term care	9.1	9.8	10.5	11.6	13.0

Note: Percentages of residents in institutions covered by long-term care insurance take the total number of residents of institutions covered by long-term care insurance as 100.

Table 11. Percentage distribution of rooms by room capacity

Units: %

As of October 1st of each year

	Welfare facilities for the elderly requiring long-term care		Healthcare facilities for the elderly requiring long-term care		Recuperative medical care facilities for the elderly requiring long-term care	
	2011	2010	2011	2010	2011	2010
Total	100.0	100.0	100.0	100.0	100.0	100.0
Private room	64.8	63.1	42.3	41.9	20.1	19.9
Unit type	47.3	44.8	12.2	11.7	0.5	0.2
Other	17.5	18.4	30.2	30.3	19.6	19.7
2 person room	10.2	10.6	13.1	13.2	18.1	18.1
Unit type	0.1	0.1	0.0	0.0	-	-
Other	10.2	10.5	13.1	13.2	18.1	18.1
3 person room	1.0	1.0	2.1	2.0	10.3	10.3
4 person room	23.6	24.9	42.5	42.9	51.4	51.7
5 person or more	0.3	0.4	.	.	0.1	0.1

Note: "Unit type" means a living room (recuperation room) within a unit, and "Other" means a living room (recuperation room) which is not Unit type.
