Collective dose (person-mSv)	22,153.8	538.8	22,692.6	/	
Max. dose (mSv)	10.4	3.7	10.4	/	

[Notes to the table]

• How to read the table entries: The number "6,933" in the box of the dose row "1 < Dose ≤ 2" and the "male" column means that there were 6,933 male workers who were engaged in the decontamination and related works, etc., and whose radiation doses were in the range of greater than one and less than or equal to two millisieverts in 2014.
