AIDS Control Measures

Outline of Guidelines for AIDS Prevention

Dissemination, enlightenment, and education

- <Measures mainly implemented by the government: general dissemination/enlightenment>
- Provision of basic information and correct knowledge on HIV/AIDS
- Development of and preparation of manuals on dissemination/enlightenment methods <Measures mainly implemented by local governments: dissemination/enlightenment to vulnerable and at great risk populations>
- Measues for young people and homosexuals
 AIDS control projects for young people / Prevention enlightenment projects for homosexuals, etc.

Improvement of test/consultation system

- <Measures mainly implemented by the government: provision of information on test/consultation>
- Establishment of HIV test promotion week (June 1 to 7 every year)
- Reformation of test/consultation information provision system
- Development of test methods, preparation of manuals on test/consultation methods
- <Measures mainly implemented by local governments: improved/enhanced test/consultation system>
- Establishment of more accessible test system (night time on weekdays, holidays, guick test, etc.)

Reformation of medical care provision system (380 core hospitals)

<Measures mainly implemented by the government: development of new methods>

- · Establishment of outpatient team medical care
- Discussion on hospital-clinic cooperation → creation of hospital-clinic cooperation model projects <Measures mainly implemented by local governments: securing comprehensive treatment system within prefectures>
- Securing medical care system in prefectures, including establishment of core hospitals

New methods to support implementation of measures

- oEnhanced cooperation with NGOs for implementing measures, including dissemination and enlightenment
- oPromotion of comprehensive AIDS control measures through conducting regular conference among relevant ministries and agencies
- oFocused support for prefectures, etc. with consideration given to policy evaluations
- → Focused cooperation with prefectures, etc. (17 local governments) with large number of infected persons/patients

Detailed Data 1 Changes in Number of HIV Carriers and AIDS Patients by Nationality and Gender
