The screenshot shows a web browser window titled "Login Page - Windows Internet Explorer". The address bar contains the URL: <http://hqsw0041311.hq.intra.who.int/icdrevision/ni/login.aspx?ReturnUrl=%2fdefault.aspx>. The page header features the WHO logo and the text "World Health Organization ICD Update and Revision Platform".

Welcome to the ICD Update and Revision Platform.

Given the mandate by the World Health Assembly in 1990 (WHA 43.24), WHO has established an updating process to incorporate new scientific knowledge and also systematically planned for a revision of the ICD by 2015 in order to enable a wider implementation of the classification.

To start this process, a revision plan has been developed after fruitful discussions with a number of WHO Collaborating Centres and other interested parties. A coordinated series of methods will be utilized to revise the current ICD-10 to arrive at a new generation of classification. [Click here for detailed information](#)

There are three consecutive steps in the revision process:

1. **ICD 10 Plus** for entering and commenting ICD Revision proposals
2. **Draft ICD -11** for comments and field trials
3. ICD -11 and terminology /ontology work

This current platform is the first step to allow all users to enter and comment on proposals for ICD revision
