Notice No. 0317 Article 3 of the Department of Food Safety
March 17, 2011

To: All Prefectural Governors
    All Mayors in cities with Public Health Centers
    All Mayors of Special Wards

Director-General, Department of Food Safety, Pharmaceutical and Food Safety Bureau, Ministry of Health, Labour and Welfare

Handling of food contaminated by radioactivity

On March 11, 2011, the Prime Minister issued a declaration of a nuclear state of emergency relating for the accident at Tokyo Electric Power Company's Fukushima Daiichi Nuclear Power Plant.

Therefore, from the perspective of the Food Sanitation Act, which aims to prevent sanitation hazards resulting from eating and drinking, and thereby protect citizen's good health, the "indices relating to limits on food and drink ingestion" indicated by the Nuclear Safety Commission of Japan shall be adopted for the time being as provisional regulation values, and foods which exceed these levels shall be deemed to be regulated by Article 6, Item 2 of the Food Sanitation Act. We would like you to take adequate measures in terms of sales and other areas, to ensure that such foods are not supplied to the public to eat.

Inspections shall be conducted by referring to the office memo "Manual for Measuring Radioactivity of Foods in Case of Emergency" dated May 9, 2002.
Indices relating to limits on food and drink ingestion

<table>
<thead>
<tr>
