

# Revision of licensing system and establishment of notification system for food business

- Along with the institutionalization of HACCP, the notification system is established in order to grasp the addresses etc. of business operators engaged in businesses not subject to the licensing system.
- At the same time, the licensing system is revised in order to make it appropriate to the actual condition with the food poisoning risk taken into account.

\* The amendment of the act stipulates prefectural governments are to establish facility criteria for the licensing, considering the ordinance of the Ministry of Health, Labour and Welfare. In the amendment of the ministerial ordinance, specific revision is going to be made to classification of categories and facility criteria, taking into account the actual conditions.

## (For reference) Present 34 categories of food business requiring business license
