1. Australia has been free from FMD, and vaccination against FMD is prohibited in Australia.
 2. Importation of cloven-hoofed animals that have been vaccinated against FMD is prohibited in Australia.
 3. Australia has an appropriate quarantine system for the import and export of raw milk and milk products from the perspective of animal health.
 4. Raw milk of bovine origin was used in the preparation of the above products.
 5. Raw milk and/or milk products exported to Japan have been produced from raw milk obtained from clinically healthy animals, and it is prohibited to use raw milk obtained from animals infected with animal infectious diseases as an ingredient according to legislation in Australia.
 6. Raw milk and/or milk products exported to Japan have been produced from raw milk collected in Australia and/or Listed countries, and must be produced, packaged and stored only in Australia and/or Listed countries.
 7. Raw milk and/or milk products exported to Japan have been produced, packaged and stored from raw milk collection to shipment of final products to Japan without contamination by pathogens of animal infectious diseases or commingling with raw milk and/or milk products which do not meet Articles 5, 6-1 and 6-2 in 'Animal Health Requirements for raw milk and/or milk products to be exported to Japan from Listed countries'.
 8. Packages and containers such as carton boxes for raw milk and/or milk products to be exported to Japan have been clean and hygienic.
 9. All other relevant requirements of the 'Animal Health Requirements for raw milk and/or milk products to be exported to Japan from Listed countries' have been satisfied.
 10. The dairy and dairy products on this certificate were processed under sanitary conditions in accordance with the laws and regulations of Australia. The laws and regulations of Australia have been deemed to be equivalent to Japan's Food Sanitation Law and the relevant regulations of Japan.
