I, the undersigned official Inspector of the Department of Agriculture, Food and the Marine, certify that, to the best of my knowledge and belief:

(Tick as appropriate)

Raw milk and/or milk products have been produced from raw milk collected only in the Republic of Ireland and/or listed countries, and have been produced, packaged and stored only in the Republic of Ireland and/or listed countries.

OR

Ingredients derived from raw milk used in the production of milk products have originated from the Republic of Ireland and/or have been legally imported into the Republic of Ireland.

AND

A foot-and-mouth disease (FMD) virus inactivation treatment of the products has been carried out in any stage of production by any of the following methods:

a minimum temperature of 132°C for at least one second in liquid form (UHT), OR
 (pH less than 7.0) a minimum temperature of 72°C for at least 15 seconds in liquid form (HTST), OR
 (pH 7.0 or greater) HTST applied twice, OR
 maintaining a pH less than 6 for at least one hour, OR
 an inactivation method equivalent to the above approved by the exporting country.

SAMPLE

1. Consignment Details as supplied by the Applicant

Caution: Certificate invalid unless bearing the official stamp of the Department of Agriculture, Food and the Marine

Certificate No: 22/0000

The Republic of Ireland is free from FMD, and vaccination against FMD is prohibited in the Republic of Ireland.

Importation of cloven-hoofed animals that have been vaccinated against FMD is prohibited in the Republic of Ireland.

Republic of Ireland has an appropriate controls system for the import and export of raw milk and milk products from the perspective of animal health.

Raw milk and/or milk products to be exported to Japan has been produced from raw milk obtained from clinically healthy animals, and it is prohibited to use raw milk obtained from animals infected with animal infectious diseases as an ingredient according to legislation of the Republic of Ireland.

Raw milk and/or milk products to be exported to Japan has been produced, packaged and stored from raw milk collection to shipment of final products to Japan without contamination by pathogens of animal infectious diseases or commingling with raw milk and/or milk products which do not meet Articles 5, 6-1 and 6-2 in Animal Health Requirements for raw milk and/or milk products to be exported to Japan from Listed countries.

Packages and containers for raw milk and/or milk products to be exported to Japan are clean and hygienic.

The products described here were processed under sanitary conditions in accordance with EU laws and regulations, which have been accepted by Japan as equivalent.
