	18 Sufficiency ratio (14/13x100) (%)	11.5	10.0	11.2	0.3	—	

(Notes)

1. Seasonally adjusted figures are calculated by removing seasonal components from the original series, using the US Census method(X-12-ARIMA).
The values prior to December 2024 have been adjusted by using the new seasonal indexes at the time of issuance of the January 2025 data.

2. ▲ means decrease.

3. "Regular workers" refer to either a work without fixed employment term or a work with fixed term of more than 4 months (excluding seasonal work).

4. "Part-timers" refer to those employees whose scheduled working hour is less than that of the regular employees in the same workplace.
