

Sum up of radionuclide test results reported in FY2018  
(Up-to-date Report as of 28 Mar 2019)

- 1) The products which are exceeding limits will be taken appropriate measures, such as disposing.  
 2) The underlined items indicate marketed products, which is informed at the reporting of test results.  
 Not elsewhere specified, the items are marketed within the prefecture of production.  
 3) Items which are exceeding limits are divided between " items which are not under cultivation/feeding management"  
 and "items which are under cultivation/feeding management", just for reference.

\*Monitoring of radioactive materials in food are mainly carried out before shipment.

Most of the food items exceeding the limits are derived from areas where restrictions of distribution have been instructed.

The lot of testing item, which exceeds the limits, is treated as violation of Food Sanitation Act.

\*Monitoring of radioactive materials in food are mainly carried out before shipment.

Most of the food items exceeding the limits are derived from areas where restrictions of distribution have been instructed.

The lot of testing item, which exceeds the limits, is treated as violation of Food Sanitation Act.

\*Monitoring of radioactive materials in food are mainly carried out before shipment.

Most of the food items exceeding the limits are derived from areas where restrictions of distribution have been instructed.

The lot of testing item, which exceeds the limits, is treated as violation of Food Sanitation Act.
