[Notes to the table]

- How to read the table entries: The number "374" in the box for the age row of "25-29" and the dose column of "1 < Dose ≤ 2" means that there were 374 workers who were engaged in the decontamination and related works, etc., whose ages were in the range of 25-29, and whose radiation doses were in the range of greater than one and less than or equal to two millisieverts in 2014.

- Data based on registration as of 8 June 2015.
