

## 2 About after-school activities for kids

### ◆ Subjects of existing systems

- Positioning them systematically is remaining in effort obligation of municipalities and use security is weak. Securing quality corresponds to guidelines and others.
- For resources, it is discretionary aid, and the actual condition of difference between amount of basic state subsidy and working expenditure is pointed out. Treatment of those who engage in them is also in a difficult condition.

### ◆ Course in the new institutional system

- It is important to plan quantitative expansion while securing quality.
- It is necessary to consider more and more on need for standards, how they have to be, positioning them systematically (implementation responsibility, method for use and benefit), and reinforcement of resources.

## 3 About supports for all families raising their children

### ◆ Subjects of existing systems

- All kind of support business for child raising are remaining in effort obligation of municipalities and there is big regional difference in implementation status.
- Especially, for temporary keeping, from also the perspective of fairness of public investment with childcare, specific use security is called for.

### ◆ Course in the new institutional system

- Reinforcement of supports for all families raising their children is necessary.
- Toward reinforcement of security for temporary keeping, more consideration on positioning them systematically and reinforcement of resources is necessary.
- Consideration on positioning all kind of business systematically and the way resources have to be and others.

## 4 About information publication and systems of evaluation

- According to defined information on quality of services including employees' employment-form and years of experience, examination into embodiment of information publication system by the public subject.

## 5 About resources and cost imposition

- Measures against declining birthrate is the measures pertaining to essence of maintenance possibility of the social economy and social security. To realize the new institution system, securing financial resource is essential, and systems to support one another deeply in the whole society are necessary. The points mentioned below are continuing to be examined while examining the whole image of the new institution system.
  - For local imposition, systems in which irrelevant regional difference doesn't occur, and discussion on the basis of effect of public day-care general resources
  - For employer's imposition, link between such benefit and imposition as services pertaining to working styles deeply, systems like promoting review of working styles, etc

- Hereafter, according to the report, examination is continuing on the basis of trends in Tax System Reform toward to embodiment of the new institution systems including "comprehensive and systematic nature", "universality" and "nature of continual."
