Date of boarding or loading

SANITARY INFORMATION

1. The animal shows no clinical signs of rabies at the time of shipment.
2. The animal has been kept since birth in a storage establishment where infectious diseases* designated below have not been confirmed for the past 12 months (This storage establishment is meeting the standards** defined by the Minister of Health Labor and Welfare of Japan).

* "disease" in rodents refers to pests, rabies, monkeypox, hemorrhagic fever with renal syndrome, hantavirus pulmonary syndrome, tularemia and leptospirosis

** "standards" in relation to rodents means:

1. The construction of the establishment must be appropriate in order to prevent the intrusion of animals outside.
2. Sanitary controls, such as disinfection, must be periodically implemented.
3. No outbreak of pests, rabies, monkeypox, hemorrhagic fever with renal syndrome, hantavirus pulmonary syndrome, tularemia and leptospirosis has been clinically reported in human beings and animals in the establishment for the past 12 months and necessary measures have been taken in order to prevent the outbreak of these infectious diseases.
4. The data regarding the sanitary and feeding control of animals (including records of the introduction, breeding, death and shipment of animals) must be recorded and be kept adequately.

I, the undersigned, certify that the animal described above meets the requirements.
