Comparison Tables

Rate/Trend Comparisons
set higher priority for cancer control when rates are high or rising
learn more...
by State/County: prioritize cancer sites
by Cancer: prioritize states or counties in a state

Death Rates
for states or for counties in a state
learn more...

Incidence Rates
for states with high quality cancer registries
learn more...

Interactive Graphs and Maps

5-Year Rate Changes
in cancer mortality or incidence for all major cancer sites by user selectable criteria
learn more

Historical Trends
compare trends in cancer mortality and incidence by user selectable criteria
learn more

Latest Rates, Percents, and Counts
explore relationships across geography of mortality, incidence, demographics, or risk factors
learn more

Interactive Maps
for states or for counties in a state
learn more

Support Data

Screening and Risk Factors
prevalence percents by state from behavioral surveys
learn more

Peer Counties
identify counties that are comparable based on a user specified criteria
learn more

Age Distribution
male and female population sizes by age groups by user selectable criteria
learn more
