

Overview

Overview of Public Assistance System

[Public Assistance System]

The Public assistance system is a system which provides necessary assistance to all people who are destitute in accordance with their level of needs. This system is intended to guarantee the minimum standards of a wholesome and cultured living and to enhance independence.

The system consists of 8 kinds of assistance: livelihood assistance, education assistance, housing assistance, medical assistance, long-term care assistance, maternity assistance, occupational assistance and funeral aid. 1 or more of these aid Programs are offered according to the needs of each person in need of protection.

Setting the Amount of Public Assistance

(Calculation of Minimum Living Expenses)

<table border="1"> <tr><td style="text-align: center;">Livelihood assistance</td></tr> <tr><td style="text-align: center;">Living expenses</td></tr> </table>	Livelihood assistance	Living expenses	+	<table border="1"> <tr><td style="text-align: center;">Housing assistance</td></tr> <tr><td style="text-align: center;">House rent, etc.</td></tr> </table>	Housing assistance	House rent, etc.	+	<table border="1"> <tr><td style="text-align: center;">Education assistance</td></tr> <tr><td style="text-align: center;">Compulsory education expenses</td></tr> </table>	Education assistance	Compulsory education expenses	+	<table border="1"> <tr><td style="text-align: center;">Long-term care assistance</td></tr> <tr><td style="text-align: center;">Long-term care expenses</td></tr> </table>	Long-term care assistance	Long-term care expenses	+	<table border="1"> <tr><td style="text-align: center;">medical assistance</td></tr> <tr><td style="text-align: center;">medical expenses</td></tr> </table>	medical assistance	medical expenses	=	Minimum living expenses

• In addition to the above items, a standard amount is added in the case of child birth, funeral, etc.

(Calculation of Income Appropriation Amount)

Average monthly income – (Actual necessary expenses + Basic deductions) = Income appropriation amount

(Calculation of Assistance Amount)

Minimum living expenses – Income appropriation amount = Assistance amount

[Standard Amount for Public Assistance]

Among the standards for public assistance programs, the livelihood aid standard, which denotes the minimum standards for daily living for such items as food and clothing, is determined by a balanced maintenance method which is revised based on the growth of the consumption level of the general public.

Livelihood assistance Standard by Type of Household (FY 2010)

(Unit:yen)

	Standard 3-person household: 33-year-old man, 29-year-old woman and 4-year-old child	Household with a single elderly person: 68-year-old woman	Elderly couple household: 68-year-old man and 65-year-old woman	30-year-old woman and 9 and 4-year-old children
1st class area - 1	175,170	80,820	121,940	193,900
1st class area - 2	167,870	77,190	116,460	187,470
2nd class area - 1	160,580	73,540	110,960	179,310
2nd class area - 2	153,270	69,910	105,480	172,880
3rd class area - 1	145,980	66,260	99,990	164,730
3rd class area - 2	138,680	62,640	94,500	158,300
